## Skills

- UX UI Design
- Web Design
- Mobile-First Design
- Prototyping
- Vibe-Coding

## Education

- 2020-2025  
**B. Sc. CSIT (Computer Science)**  
AIMS College (T.U.)
- 2017-2020  
**+2 Science**  
Arniko College
- 2006-2017  
**High School**  
St. Joseph's H Sc. School

## Languages

**English** - Conversational

**Nepali** - Native

**Hindi** - Conversational

## About Me

I am a dedicated UI/UX Designer who design with empathy, research, and iteration—starting from understanding user needs to delivering polished, scalable solutions. I'm especially interested in crafting seamless user flows, meaningful interactions, and modern design systems that balance usability with business goals.

## CORE COMPETENCIES

### UI

- Figma (Professional): Components, Auto-layout, Design Tokens, Prototyping, Dev Handoff
- Solid Understanding of White space , Composition, Typography, Color Theory
- Wireframing & Information Architecture
- Design Systems & Documentation
- Responsive Web Design & Grid Systems
- Accessibility & Inclusive Design

### UX

- AI based UX Research
- UX writing
- Understanding how AI influences design and user experience
- WCAG compliance, inclusive design
- Understanding User-Behavioral Patterns (Thumb heatmaps, FZ patterns)

### Soft-Skills

- Communication - Presenting and Satisfying Australian clients
- Collaboration - Working with teams across Time-Zones
- Problem-Solving- Translated A/B testing data into actionable design improvements
- Attention to Detail, Adaptability, Time Management

# Professional Experience

- September 2025- Present

## **Product Designer**

EBPearls (Australian Tech Company)

- Managing 3 concurrent design projects
- Website & Landing Pages: Redesigned many Project's Landing pages for visual consistency and conversion optimization; designed pattern-based components; created hero sections with SEO best practices
- Design Systems: Built reusable component library with design tokens: reduced handoff time by 35-40%
- A/B Testing: Designed 3 test variations for rapid experimentation; iterated based on user feedback
- Creative Production: Office Event's Flex, Office Event's Props
- Project Coordination: Managed Collaboration via Zoom, CODA and JIRA; collaborated with marketing, product, and development teams

Impact: At EBPearls, I communicate directly with Australian clients, collaborate across teams, and design 100+ assets while progressing through Clients— proving I can handle new systems and grow rapidly

- June 2025 - July 2025

## **Product Design Training**

Clove IT (Biratnagar)

- Understanding Basic Color Theory (60-30-10 rule), Spacing (4pt Spacing), Typography
- Learned core UI/UX design principles: visual hierarchy, typography, color theory, spacing
- AI Literacy and it's impact in designing
- UI best practices (consistency, accessibility, responsive design)

Impact: Foundational training enabled career transition from CSIT to professional designer, design principles directly inform component hierarchy, visual consistency, and accessibility standards across projects
